Sta. Barbara, Agoo La Union

ABOUT ME

I am a fresh graduate with a Bachelor of Science in Information Technology from the Polytechnic College of La Union (PCLU), ready to turn innovative ideas into reality. Successfully delivered mission critical project components during a productive internship with the Department of Science and Technology and championed user experience in a core academic Library Management System development. You can view my live deployments and full project documentation on my portfolio: <https://jv-joaquin.vercel.app/>

KEY SKILLS

- Leadership & Collaborative Development
- Project Management
- Time Management
- IT Support
- Version Control: git & github
- Web Development
- Negotiation Skills
- Problem Solving & Troubleshooting

EXPERIENCE

IT Intern | Department of Science and Technology (DOST Region 1) 2025–2026

- Co-developed and launched two key web applications: a Record Management System and a Disbursement System.
- Collaborated closely with a cross functional team to build, test, and implement technical solutions, utilizing modern version control and cloud deployment workflows.
- Provided direct IT support to users, addressing system errors, software glitches and installed, configured, and repaired local printers to ensure reliable daily operation.

PROJECT

EyeCaneWalk: An Arduino Base Cane for Visually Impaired Learners for San Fernando City SPED Integrated School 2024–2025

- Engineered a specialized smart cane designed to enhance the mobility and safety of visually impaired learners by providing real time obstacle detection through haptic and auditory alerts.

Developer of Library Management System of Polytechnic College of La Union 2025–2026

- Designed and launched a comprehensive Library Management System in partnership with a co-developer.
- Handled the end to end development cycle, from initial system architecture to final live deployment.

EDUCATION

Bachelor of Science in Information Technology 2022–2026 Polytechnic College of La Union (PCLU)

Academic Awards

- Dean's Lister (2024)
- Best in Programming (2026)
- Most Innovative Capstone (2026)
- Excellence Awardee as intern in Information Technology (2026)
- Excellence Awardee Top 10 Finalist Interschool Startup Challenge (2026)

SEMINARS & CONFERENCES

Consistently attending industry-led seminars to bridge academic knowledge with current trends in AI research, cybersecurity protocols, and smart community development.

- Spectrum in IT Competencies for Today's Digital Landscape (2024)
- PICSPRO Cybersecurity Conference & Chapter Installation Philippine Institute of Cybersecurity Professionals (2024)
- From Concept to Code: Research and Artificial Intelligence in IT (2025)
- Innovating Together Toward Smart, Sustainable, and Inclusive Communities (2025)
